

Get your business communications ready for the **21st century workplace**

Save up to 50% versus your current bills with IPT Hosted Phone

Is your business ready for the way we do business now?

With IPT Hosted Phone it will be. Say goodbye to cumbersome on-site hardware, maintenance, complex training, and expensive upgrades.

With IPT Hosted Phone you can take your business communications to the next level with a fully cloud-based hosted PBX allowing you to be always connected to your team and customers in a cost-effective and future-proofed way.

What is IPT Hosted Phone

- ✓ Rather than having physical infrastructure on site handling your calls, a Hosted Phone System from IP Telecom takes your Phone System (PBX) and calling to the cloud
- ✓ Being cloud based means that we always provide you with the most up to date solutions for your business
- ✓ Routing your calls via cloud based VoIP calling allows your business to save up to 50% on costs vs your current provider
- ✓ Quick and easy installation in a matter of days with zero downtime
- ✓ Call from anywhere, using your work number from your laptop or mobile device via your phone system perfect for remote enabling your staff whilst avoiding large mobile bills

IPT Hosted Phone

A Host of Features for your business

| Choose South Africa's best supported, most user-friendly platform.

Connect multiple locations

Bring together offices and employees in different offices, cities or countries.

Remote enable your staff with our cloud based phone system.

Simple Deployment

With unlimited free calling to South Africa Landlines Forget about costly line rentals and call charges with one low monthly fee.

Keep your numbers

A new phone system doesn't mean you have to change your numbers, we can onboard your existing numbers or supply you with new ones whenever you need them.

Non geographic numbers

Need a number that's not tied down to one location? Choose a non geographic number that's at the same rate wherever you are

Add new users anytime

Upscale or downscale anytime you need.

IP Telecom's easy to use Hosted PBX platform gives you full control of your users.

Record, hold and transfer call

Our Hosted Phone System has a suite of built in call tools include on hold messaging, call recording, advanced call routing and call flow tools, and detailed call metrics.

Additional tools like video conferencing, instant messaging and collaboration tools can all be integrated with our Hosted Phone Solution

Keep your hardware

Use your existing SIP handsets with our Hosted phone service, or select from a great range of the latest hardware or go 100% softphone - the choice is yours.

Stay secure

Keep your business and client data secure with advanced compliance features such as diversion inhibitors, voice call encryption, inbound call recording and more.

Never miss a call

Multiple levels of call failover ensure you'll never miss a call even when your competition is totally in the dark.

The support from IP Telecom was first rate.

We were installed, trained and operational within a few days. The service is excellent!

IPT Hosted Phone

Four Steps to Success

1 Get in Touch
Talk to our team of experts and we'll help find the solution that's best for your business.

2 The Telephony Audit
Our Telephony Audit will help craft a bespoke system that's built around your business needs, providing solutions based on users, locations, remote enabling of staff, Integrations with the CRM and collaboration tools your business uses and of course how much we can save you vs your current supplier.

3 Install
IP Telecom trained engineers will come to you for onsite installation to have you up, running and ready to use your new phone system in a matter of hours with little or no downtime.

Need training, no problem we can do on site or remote training if you need it

4 Start benefiting!
Save from the very first day! Customers who made the switch to IP Telecom's Hosted Phone have told us how they have saved time, avoided missed calls and saved cash every month.

At IP Telecom, we're passionate about communications, working with customers to reimagine the way their business functions and create genuine collaboration. We drive progress, innovation, and creativity to help businesses stay ahead of the curve and leverage the latest technology for greater efficiency and effectiveness.
